Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 1-42 stand rejected under 35 U.S.C. 103(a) as being obvious over JP 10158541 document in view of Schmid et al. (U.S. Patent No. '486) and further in view of JP 5017710 document.

Response to Arguments

Applicant's arguments filed 1/15/02 have been fully considered but they are not persuasive.

Applicant argues that Schmid ('486) does not teach or suggest a cosmetic make-up composition comprising a cosmetically-acceptable medium. There is no disclosure in Schmid that would enable one of ordinary skill in the art to make a cosmetic composition containing luster pigments. Neither the '710 Japanese document nor the '541 Japanese document teach or suggest a cosmetic makeup composition comprising at least one dyestuff in a cosmetically acceptable medium.

In response to applicant's arguments, Schmid '486 teaches luster pigments are known to be used in cosmetic preparations (see col.8, line 45) and the properties taught by the ('710) Japanese document and '541 JP document are the same as that of the claimed invention.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
